

**Do you have a child between the ages of 3-9 diagnosed with
Autism Spectrum Disorder or Down Syndrome?**

Ms. Celia Tam, a graduate student at the University at Albany, SUNY, and Dr. Leslie Halpern, a child psychologist at the University at Albany, SUNY, are recruiting families for a research project, the *Family and Parenting Study for Children with Developmental Disabilities Study*, to learn more about how we can develop better services for families raising a child with developmental disabilities. We are asking parents/caregivers to answer some online questionnaires about their child, parenting, and family life. These questionnaires take approximately 35 minutes to complete, and responses are kept anonymous and confidential.

Participation is voluntary and there is no cost to you to participate. Participants will have an opportunity to enter a raffle, and three winners will be selected to receive a \$75 American Express gift card.

For more information, please visit the website below, or you can contact Celia Tam, M.A., at (518) 442-4903 or by email at ctam@albany.edu.
