

## **Behavior Technician Part-Time (15-20 hours)**

CCSN Behavioral Health seeks a Behavior Technician to join the staff of our newly developed ABA Clinic. The CCSN Behavioral Health ABA Clinic is based in Glastonbury, CT and utilizes a center-based model to deliver empirically supported ABA services to children with autism and related neurodevelopmental disorders.

Applicants should have a minimum of a Bachelor's degree in Behavior Analysis, Psychology, Special Education, or a related field and have 1-year of experience working with individuals with autism spectrum disorders and/or other developmental disabilities in educational, community, or home settings. Primary responsibilities will include implementation of ABA-based programming (e.g., direct instruction, daily living skills support, functional communication protocols), modeling to support family training, data collection, graphing, and progress note reporting. Candidates must be comfortable using computer and application based technology for data collection, entry, graphing, and note taking during sessions. We seek an enthusiastic individual with excellent communication and organizational skills, along with a proven and extensive history of team work.

Applicants must be available to work between 15-20 hours weekly. Hours will primarily be Monday through Friday between 10:00 am – 6:00 pm. Scheduling may be flexible around academic commitments for students.

CCSN Behavioral Health offers Behavior Technicians training, supervision, and support in completing their Registered Behavior Technician © (RBT) credential as well as extensive individual and group supervision to help ensure excellence in clinical practice. The Center is also able to provide BCBA supervision for appropriate candidates. Hourly salary would be commensurate with experience.

Interested individuals are encouraged to forward their curriculum vitae and a cover letter to: CCSN Behavioral Health, 2300 Main St., Glastonbury, CT 06033; Fax: 860-430-1767; Email: [info@ccsnc.org](mailto:info@ccsnc.org), attention Dr. Michael Powers.
